# Introduction

Numerology is one of the most ancient sciences of symbols, and dates back over 10,000 years to the Egyptians and Babylonians. It is a practice that has continued to be relevant into the present day, made ever more popular by the great Greek philosopher and mathematician Pythagoras.

It is a deep study of the meaning of numbers and of their mystical influence on us, and every number has a unique vibration, meaning, and power.

---

**“Everything in the Universe is mathematically precise, and that each number has its own vibration, meaning and virtue.”**

~ Pythagoras

---

We all have spirit guides, who some refer to as *guardian angels*, and whom influence us with messages and visions. Many of these messages appear as signs or symbols; sometimes this may come in the form of an animal, and other times you will see the same word repeated in different places, which can often hold a specific meaning to you. Another way in which our guides often send us messages is by showing us numbers, sometimes a single number repeated, and other times a pattern or sequence of numbers.

Our guides do their utmost to attract our attention and to communicate with us in order to help us keep our lives on the right path. However, in our ignorance we often dismiss their signs, putting it down to coincidences or our overactive imaginations.

Our guides regularly send us messages using numbers, and these will hone into view at an appropriate time. Often this will be the actual time, sometimes it will be a number on a vehicle registration plate, a signpost, or a telephone number, and can happen repeatedly until we acknowledge them and have the desire to find out more.

Numbers are an easy way to decipher the messages your guide sends you as numerals are everywhere, from digital clocks to phone numbers on advertisements.

When you notice the same numbers cropping up time and time again, you should try to get more information from your guide about what they are wanting you to know. Answers will usually come in the form of spiritual messages, which to the layman will often seem like a thought. Other times they will come as visions or feelings.

The more you notice these signs, the more frequently they will appear in your life, and once you understand their meanings and accept that they are not merely coincidental, but important and purposeful events and messages, you will experience a closer and clearer communication with your guide. You will start to discover more spiritual signs and messages all around you, and more frequently.

You may also notice numbers that have a very personal significance, such as birth dates, anniversaries, and telephone numbers. In these cases your guide is giving you an even deeper, relevant and personal message.

As you recognize and interpret the numbers around you, you may become aware of an increasingly stronger bond with your guide. This greater connection allows them to open doors which bring peace, hope and love.

The recurrence of numbers is a subtle and constant reminder that something magical or Divine is happening. When you see these *Angel*

*Numbers*, acknowledge that your guide is telling you that you are on your true path, and remember to thank them for communicating with you.

When you see the numbers of your date of birth recurring, it is often an indication that you are to concentrate and focus upon your true life purpose, your reason for being, your soul mission. Seeing your own birthday is a reminder of why you were born and your reason for being on the Earth plane at this time.

The main thing about seeing and acknowledging these recurring numbers is the fact that you are consciously seeing them. At this time, your guide is communicating directly with YOU. The messages are for YOU and they are about YOU and YOUR life ... It is up to YOU to take the time to go within, listen to your intuition and true self, and to figure out what the messages are saying and what they mean to YOU. Only you know what lies within yourself.

# Chapter 1: Number Zero

**T**he number 0 is the Alpha and it is the Omega, as there is no beginning and no end; all is infinite. The ancients proclaimed this to be the *God Force* and is a circle whose centre is everywhere and its circumference is nowhere. Zero is the symbol of nothingness and denotes freedom from limitations in this material world. It is also the number of the Universal Energies; it encompasses the attributes of all other numbers and reinforces, amplifies and magnifies the vibrations of those numbers it appears with.

Number 0 resonates with the vibrations and energies of eternity, infinity, oneness and wholeness, continuing cycles, flow, and the beginning point. It also relates to meditation and prayer and brings one closer to the Source.

## **Repeating & Recurring Zeros 0, 00, 000 & 0000**

When zero recurs, its message is to do with developing one's spiritual aspects as 0 is considered to represent the beginning of a spiritual journey and highlights the uncertainties that may entail. It suggests that you listen to your intuition and higher-self as this is where you will find all of your answers.

A recurring 00 sequence relates to prayer and/or meditation practices. It is telling you to listen for guidance and watch out for signs. The Universe is emphasising a message to you and asks that you pay attention and follow the guidance given without delay.

000 is a reminder that you are one with the Universe. You are a powerful being with the ability to manifest all that you desire into your life. All that you say and do has an impact and effect, whether this is positive or negative, so ensure that your thoughts, beliefs and desires are of a positive nature as this is what you will draw into your life.

When the 0000 number sequence appears repeatedly it is an indication to you that a situation or issue in your life has come full circle.

## **Combinations of Zero 0 & 1 – 0101, 0011, 0110 etc.**

When 0 is combined with other numbers, their potential is magnified and enhanced by its presence. The number 0 amplifies and encourages the energies and vibrations of numbers it is with.

Recurring 0's and 1's tells you that you are receiving Divine guidance through your thoughts, ideas and claircognizance; that is, knowing facts without understanding how you received the information. You are to remain positive about the messages you receive and act upon them for your own benefit.

You are being urged to alter your thoughtpatterns, beliefs and/or mind-set. Be aware that the solution or answer is within your own thoughts. You need to maintain a positive frame of mind in order to hear your guide clearly. Ask your guide to direct your thoughts and to support you during this transition. Listen out for their advice and look out for the signs.

Only you and your guide really know what is right for you, so listen to your own intuition and innerknowing. Your guide will plant thoughts and ideas into your mind in order to direct you accordingly.

The message of the number 100 is to remind you to keep your thoughts totally aligned with the Divine. Do not allow negative emotions or thoughts deter you from your spiritual path. Your positive thoughts and actions make a huge difference in your day to day life, and you are asked to keep your face to the light.

## **0 & 2 – 0202, 0022, 0220 etc.**

The 2 vibration is all about balance, harmony, peace and love. 2 is also the number of duality and polarity.

When the 0 and 2 combination repeatedly appears, the message is to do with *Divine Timing*. Certain factors need to fall into place before your desired result can come to full fruition and you are asked to be patient whilst things are being organised behind the scenes by your guide and the Universe. The message is to hold onto your faith and trust and be patient for a little while longer.

When the 0 and 3 combination presents itself, your guide is trying to get your attention.

The 0 and 3 combination is the Universe's way of alerting you to take notice. The message is to listen to and follow your Divine guidance in order to take the most appropriate actions at this time. Remember that everything happens for a reason and within its Divine right time.

## **0 & 4 – 0404, 0044, 0440 etc.**

The number 5 has to do with moving forward, freedom and courage and you are being prepared for some upcoming life changes.

The 0 and 5 combination is an important message that lets you know that your life changes are in Divine and perfect order. Everything is moving along as it should on your life path, and you are asked to “go with the flow”. There is no need to stress or be concerned at all, as all is going to plan.

## **0 & 6 – 0606, 0066, 0660 etc.**

The attributes of the number 6 are truth, love and compassion, particularly focused upon family and home life.

When the 0 and 6 combination recurs, you are being asked to focus less on material aspects and financial issues, and look to a more spiritual approach to having your wants and needs met. Simply hold faith, trust and gratitude, and be open to signs and new opportunities that will bring your material needs to you.

The vibration of the number 7 has to do with wisdom, individuality and endurance, and is the number of the mystical and spiritual realms.

With the recurring combination of 0 and 7, your message is that you deserve accolades for the physical, spiritual and mental work you have been doing. You are helping yourself and many others with your current life choices and are to be commended, encouraged and supported. You are asked to continue on with your great work.

## **0 & 8 – 0808, 0088, 0880 etc.**

The number 0 amplifies and magnifies the energies of any number it appears with, whilst the number 8 brings the attributes of wisdom, dependability and stability. 8 is also known as a power number and its vibration adds a strong energy to any number it is combined with.

This particular number combination is a message signifying that the impending endings in your life are part of your overall soul purpose and Divine Life Mission. Ask your guide to help ease any fears or worries you may have about these upcoming changes. You will find with hindsight that the changes were necessary and ultimately, very positive for you.

## **0 & 9 – 0909, 0099, 0990 etc.**

The number 9 carries the attributes of humanitarianism, wisdom and leadership, lending these energies to all messages to do with the number 9.

When a 0 and 9 combination recurs, your message is that even though a part of your life has been halted or changed, things will turn out for the best, like a blessing in disguise.

## Chapter 2: Number One

**N**umber 1 resonates with the vibrations, energies and attributes of independence, individuality, uniqueness, oneness with life, intuition, initiative, innovation, inspiration, strong willpower, selfleadership, instinct, self-development, selfreliance, ambition, leadership, organisation and the organiser, authority, force and forcefulness, assertiveness, positivity, raw energy, strength, courage, masculinity, love, leniency, activity, originality, high achievements, attainment, success, new beginnings, creation and creativity, pioneering and the pioneer, striving forward and progress, motivation, tenacity, will power, risktaking, omniscience, fulfilment, glory, fame, and happiness.

Number 1, being the number of *newness* is the number from which all manifestation begins. It is the energy that begins all actions and leads the way in new directions. It is the number of new projects, courage, originality and decisiveness and the desire for expansion on all levels.

Angel Number 1 is a reminder that we are all connected and we are all associated by our thoughts.

Angel Number 1 encourages you to look to new beginnings, opportunities and projects with a positive and optimistic attitude as these are appearing in your life for a very good reason. Your guide wants you to achieve and succeed with your desired goals and aspirations so do not hesitate in taking positive steps and striving forward. Do not allow fears, doubts or concerns to hold you back from living and serving your Divine life purpose and soul mission. It also encourages you to take up challenges with total faith and trust in yourself and the Universal Energies.

## **Repeating & Recurring Ones 1, 11, 111 & 1111**

Every number is divisible by 1. We are all one, therefore we are all connected and associated by thought. When the Angel Number 1 appears to you repeatedly it is a message to watch your thoughts and focus upon your positive desires, rather than your negative fears.

The recurring Angel Number 1 asks you to be aware of your thoughts and focus upon your true heart's desires so that they are able to positively manifest into your life. Do not focus on your fears and what you don't want as these can manifest too.

The 1 number sequence (in all its forms) is most often the first sequence that appears to many people. Once 1111 is acknowledged, the numbers change to other combinations along with new life experiences, directions and opportunities.

The Angel Number 1 is telling you of new beginnings and changes. It signifies leadership and independence and tells of new starts and new actions that will take self-reliance and determination. Leadership takes courage, strong willpower and decisiveness in all areas, so that the goal can be achieved.

When Angel Number 1 appears repeatedly it signifies that an energetic gateway has opened up for you, and this will rapidly manifest your thoughts into reality. The message is to choose your thoughts wisely, ensuring that they match your true desires. Do not put your energy into focusing on fears as you may manifest them into your life.

The number 11 is a karmic, Master Number. The Master Number 11 tells us that to become involved with the higher-self is to know our life purpose and soul mission. Once we learn to blend the higher-self with our daily thinking pattern, we will learn how to avoid the obstacles and pitfalls experienced when we operate fully on a materialistic level. As we learn to blend the two levels we mature and develop spiritually. It makes us grow stronger and develop an innerstrength that will help us to steer our lives in the right direction. Balance within gives us great strength to our character. The essence of the message of the number sequence of 11 is to develop intuition, clairvoyance, spiritual healing and metaphysical faculties. The Number 11 symbolises the principle of spiritual enlightenment.

When Angel Number 11 appears repeatedly in your life your guide is asking you to pay attention to your repetitive thoughts and ideas as they hold the answers to your prayers.

When you recognise the Angel Number 111 sequence appearing to you frequently, take note of your thoughts at the time that they occur. When a series of 111's appear, monitor your thoughts carefully and be sure to only think about what it is you really want, not what you don't want.

The 1111 sequence is most often the first one that appears to many people. Once the 1111 is noticed and acknowledged, the number sequences progress onto other numbers and your guide has other messages to pass on to you. The sequence 1111 is a sign that there is an opportunity opening up for you, and your thoughts are manifesting them into form at lightning speed. The 1111 is similar to the bright light of a flashbulb. It means that the Universe has just taken a snapshot of your thoughts and is manifesting your ideas into material form. Be aware that you will manifest your thoughts, therefore, do not think negative thoughts as these are what you will draw into your life instead. Use the positive energies of the Universe to bring to fruition your deepest desires, hopes and dreams.

## **Combinations of One 1 & 0 – 1010, 1100, 1001 etc.**

Recurring 0's and 1's tells you that you are receiving Divine guidance through your thoughts, ideas and claircognizance; that is, knowing facts without understanding how you received the information. You are to remain positive about the messages you receive and act upon them for your own benefit.

You are being urged to alter your thoughtpatterns, beliefs and/or mind-set. Be aware that the solution or answer is within your own thoughts. You need to maintain a positive frame of mind in order to hear your guide clearly. Ask your guide to direct your thoughts and to support you during this transition. Listen out for their advice and look out for the signs.

Only you and your guide really know what is right for you, so listen to your own intuition and innerknowing. Your guide will plant thoughts and ideas into your mind in order to direct you accordingly.

The message of the number 100 is to remind you to keep your thoughts totally aligned with the Divine. Do not allow negative emotions or thoughts deter you from your spiritual path. Your positive thoughts and actions make a huge difference in your day to day life, and you are asked to keep your face to the light. The number combination of 1's and 2's indicates that your thoughts are like seeds about to germinate and are a sign that things will be going in your desired direction. You are asked to ensure that the seeds you sow are of a positive and uplifting nature.

There may be some new directions or opportunities to take which will lead to fulfilment and personal happiness. The message is to keep the faith, knowing that the Universe and your guide is behind you all the way.

A combination of the numbers 1 and 2 may be a message telling you to look to new or different ways to enhance your home and family life. Bring in some new furniture or re-decorate and update where you can as this will usher in positive energies. Tell family members how much you love them.

### **1 & 3 – 1313, 1133, 1331 etc.**

The number 3 can signify a goddess' presence, especially when the 3 follows a 1 as in a 13 arrangement. This is because 13 relates to the annual number of moon cycles, and the moon is associated with feminine spirituality.

The combination of 1's and 3's asks you to surrender your goals and desires to spirit, and ask for guidance in regards to what is to manifest in your life. The Universe is aware of where you are at in your life, and want to help and assist you along your path.

1's and 3's indicates that the Ascended Masters are working with you on your thought processes to enable you to make the highest and wisest choices. They are sending you positive and uplifting energies to keep you from feeling discouraged. They are also sending encouragement to stay focused on the true goals of your soul, so that you are able to succeed in your life purpose, and in life in general.

Additionally, the Ascended Masters may be offering you advice, guidance and suggestions on your life's purpose if you are questioning your current pathway. If you are unsure of your next move or what action to take, specifically ask the Ascended Masters for their assistance. Listen to your intuition and take affirmative action in that direction.

The combination of 1's and 4's is a sign that your guide seeks to help you to manifest your heart's desire. This combination brings in the energies of new beginnings, new ideas and enthusiasm coupled with hard work, effort and determination. Your willpower and effort combined with the energies of your guide will bring about what you have worked so hard towards.

1's and 4's indicate that your guide is emphasising strongly that you remain aware of your thoughts and intentions at the moment. Your guide counsels you to make a special and meaningful wish as you are now in a position where you are able to manifest your thoughts. You are asked to ensure that your desires are for the highest good, as the old adage "be careful what you wish for as it may come true" is relevant here.

The 411 combination indicates for you to ask your guide for some vital, additional information that you may need at this time, as your path may not be currently clear or apparent to you. Fear not though, as the Universe and your guide have a clear view of your life and life purpose and they know what it is that you seek. Listen out for their answers as they present themselves to you. Your guide is standing by waiting to assist. All you need to do is ask.

4 1's (1111) which adds up to 4, indicates that your guide wants you to ask them to become involved with manifesting, particularly when the manifesting involves your life purpose or giving service to the world.

### **1 & 5 – 1515, 1155, 1551 etc.**

The combination of 1's and 5's is a message that your thoughts and ideas are creating and bringing about much needed changes in your life. Please keep this in mind as you co-create your life with your guide and the Universe. Positive thoughts and actions bring about more positive energy.

The combination of the energies of 1 and 5 suggests that a new beginning or the instigation or undertaking of a new project, idea or opportunity is due to come about. It also tells of finding new and different ways to do new things and a new-found sense of personal freedom. Your guide supports you in your endeavours.

1's and 5's is telling you to focus and work towards the results you desire as they will come to fruition in due course. There may be some changes necessary to ensure that all goes according to plan, but your guide will see to it that these changes are made.

You are advised to continue steering your thoughts towards your desired direction or pathway. If the changes you see forthcoming are not what you want, be aware that you are able to stop or alter them by modifying your thoughts mind-set and focal point.

### **1 & 6 – 1616, 1166, 1661 etc.**

The 1 and 6 combination is a message to keep your thoughts heavenward and positive, and to let go of material matters or concerns as you will be presented with new ways and opportunities to meet your needs.
